

## Angel Blue

Green Day

Gonna build it up just to burn it down  
You're a princess, I'm a fucking clown  
Stop the presses cause I'm killing time  
Won't you be my bloody valentine

You're just a fucking kid  
And no one ever gives you a break  
You want a señorita  
And now your heart is gonna break

You're angel blue  
With teenage traces  
Angel blue  
With pretty faces

Stab my heart like a stick in the mud  
Cut my chest just to see the blood  
Now I'm singing out the alphabet  
As the tears are putting out my cigarette  
We'll hit the cemetery so we can see the holiday lights  
Waking up the dead and everything'll be alright

You're angel blue  
With teenage traces  
Angel blue  
With pretty faces

Alright  
Stuck in the middle of Heaven and Hell  
Alright  
Trying to find my better angels

Stab my heart like a stick in the mud  
Cut my chest just to see the blood  
Stop the presses cause I'm killing time  
Won't you be my bloody valentine

You're just a fucking kid  
And no one ever gives you a break  
You want a señorita  
And now your heart is gonna break

You're angel blue  
With teenage traces  
Angel blue  
With pretty faces
