

Do Da Da

Green Day

Every time I'm fallin' down
You take the repercussions
Headaches and anxieties
Advancing my frustrations

Rushings of my depression
Sacrifice everything
Waste with me into nothing
Well, now you're stuck with me
Stuck with me
Stuck with me

Hand up your soul to my wrist
And I'll vow my trust to you
Moving here I always thought
I realized you've imagined

Rushings of my depression
Sacrifice everything
Waste with me into nothing
Well, now you're stuck with me
Stuck with me
Stuck with me

Rushings of my depression
Sacrifice everything
Waste with me into nothing
Well, now you're stuck with me
Stuck with me
Stuck with me
