

# Missing You

Green Day

Waking up feeling naked  
In my clothes, inside a room that's vacant  
Lost my nerve, it's unnerving  
I know there is something I'm forgetting

I searched the moon, I lost my head,  
I even looked under the bed  
I punched the walls, I hit the streets  
I'm pounding the pavement looking

I'm missing you  
I'm missing you  
You're not around and I'm a complete disaster  
I'm missing you

Remember, was our first time  
I told you I loved you at the bus station  
Don't forget, cause it's not over  
I'm not lost cuz I'm just missing you

I searched the moon, I lost my head,  
I even looked under the bed  
I punched the walls, I hit the streets  
I'm pounding the pavement looking

I'm missing you  
I'm missing you  
You're not around and I'm a complete disaster  
I'm missing you

Say hey!

Well she's my bud  
And she's my soul  
I get so lost  
Out in the cold

Feels so far  
Like this lone star  
It gets so hard  
When I'm missing you

I'm missing you  
I'm missing you  
You're not around and I'm a fuckin disaster  
I'm missing you
