

# Nightlife

Green Day

Taking a ride to my old haunt  
She's in my blood, I reside in my nightlife  
My favourite color's candy apple, girl  
And she resides in my mind and my nightlife

What's that I hear? You wanna go for a ride?  
Don't be afraid, boy, to come inside  
I got the thing that you want, the fix that you need  
Chase this with a little lust and greed  
I'll be the devil on your shoulder saying "Hey boy, come on"  
My black heart beats crimson ?  
Operator, operator patch my boy in  
This is nightlife and I'll get under your skin

Taking a ride to my old haunt  
She's in my blood, I reside in my nightlife  
My favorite color's candy apple, girl  
And she resides in my mind and my nightlife

What a thrill, heart beats fast  
Sounds like love but you know it won't last  
Cheap champagne stain on an even cheaper suit  
Hope there's more in your pants than a bus route  
What is it was on your sugar-coated balls?  
Girls on your bar stools for late last calls  
This town is filled with snakes, mistakes and whiskey shakes  
It's too late I already cut the brakes

I'm rollin', rollin strollin' into town (come inside)  
Is it me or am I going crazy? (it's just you)  
This dirty city is my sugar town (sugar town)  
My little angel of death is my nightlife

Come inside  
It's just you  
Sugar town

Better make a move before I get bored  
If you wanna explore my vocal chord  
Baby girl, go girl dance in the cooch  
You want a hint on my name or a hand on the hooch?  
Why don't you stick around for one more round  
This place is a circus and I know you'll be my clown  
Cause I'm real meter, I run the show  
I only wanna tell you that we're ready, time to go

Taking a ride to my old haunt  
She's in my blood, I reside in my nightlife  
My favorite color's candy apple, girl  
And she resides in my mind and my nightlife  
Hey boy (she is my nightlife)  
Hey boy (she is my nightlife)  
Hey boy (she is my nightlife)  
See you later (she is my nightlife)
