

# Sweet Children

Green Day

1. See a young girl so soft and blonde  
Doesn't attack me but she did once  
Intoxications in her veins  
Sweet young boy plays with her brain  
Lydia'll bring to life  
Putting his hand on her thigh  
Ability has now been ripped  
Take it away, I'd rather sit

R: Sweet children,  
Sweet children,  
Sweet children,  
Remember when

2. Johnny's playing fun and games  
Or else he's ?in the storage shed?  
Running from the light of day  
Or maybe lie and celebrate  
The funny circus from his head  
Follow me if you understand  
I'll trick her so she'll do it  
Then I'll sing and now we run

R: Sweet children....
