

# Troubled Times

Green Day

What good is love and peace on earth?  
When it's exclusive?  
Where's the truth in the written word?  
If no one reads it  
A new day dawning  
Comes without warning  
So don't blink twice

We live in troubled times  
We live in troubled times

What part of history we learned  
When it's repeated  
Some things will never overcome  
If we don't seek it  
The world stops turning  
Paradise burning  
So don't think twice

We live in troubled times  
We live in troubled times  
We live in troubled times

We run for cover  
Like a skyscraper's falling down  
Then I wander like a troubled mind

What good is love and peace on earth?  
When it's exclusive  
Where's the truth in the written word?  
If no one reads it  
A new day dawning  
Comes without warning  
So don't look twice

We live in troubled times  
We live in troubled times  
We live in troubled times  
We live in troubled times  
We live in troubled times  
We live in troubled times
