

## Brother

### Green River Ordinance

Call me up in the dead of night  
Barely make your voice on the line  
The fresh taste of the mistakes  
Pray these words come out ride

Brother won't you come back home  
Tired of wondering when you'd show  
And you're still so young to feel this old  
the times not wasted

The silence broke with me holding hope  
In the palm of my hand like a distant ghost  
Tired and bored of keeping the score  
Who's wrong, who's right don't care no more

Brother won't you come back home  
Tired of wondering when you'd show  
You're still so young to feel this old  
The time's not wasted yeah  
Brother won't you come back home  
Tired of wondering when you'd show  
You're still so young to feel this old  
The time's not wasted  
Yeah wasted, wasted

Lying in the dirt can't leave it behind you  
Everything you were you

But I can still see life deep inside  
Trying to break free the love you cannot undue  
Cannot undue, cannot undue

Brother won't you come back home  
Tired of wondering when you'd show  
You're still so young to feel this old  
The time's not wasted yeah  
Brother won't you come back home  
Tired of wondering when you'd show  
You're still so young to feel this old  
The time's not wasted  
Yeah wasted, wasted
