

Cannery River

Green River Ordinance

Meet me down on Cannery River
Set your heart free for awhile
Me and you and the Man and the moon
Girl, it's good to see you smile

When we dive right in
Let that river wash you over
and may the wind be there to console you
All we have is here and now
Don't wanna spend a moment
Without you
Without you

Dig our toes in that river bottom
Play our music way up loud
If I drink too much, yeah I'll be a fool
Yeah, it always makes you smile

When we dive right in
Let that river wash you over
And may the wind be there to console you
All we have is here and now
Don't wanna spend a moment
Without you
Without you

When we dive right in
Let that river wash you over
And may the wind be there to console you
All we have is here and now
Don't wanna miss a moment...

When we dive right in
Let that river wash you over
And may the wind be there to console you
All we have is here and now
Don't wanna spend a moment
Without you
Without you
When we dive right in...
Meet me down on Cannery River
Set your heart free for awhile
