

Crawling

Green River Ordinance

I'm crawling in your heart
Love and moderation
Is all you ever gave, but look inside
Cause the sting of this sensation
It flickers like a drug there in your eyes

And you feel it, but you fight it.
The more you pull the rope it tightens
And you follow the moments
To the place we've been to find
I'm crawling in your heart
uh, uh, uh
Crawling in your heart
uh, uh, uh

You envy all the others
You're thumbing through the worst just to feel the high
And will you ever see it
It's me here by your side.

Can you feel it, but you fight it
The more you pull the load gets lighter
And you follow the moments
To the place we've been to find
I'm crawling in your heart

When you feel it, don't fight it
We can sail away tonight
And you follow the flashes
Of the love we're meant to find
I'm crawling in your heart
(We got miles and miles to go
You and me a million miles to go)
I'm crawling in your heart
I'm crawling in your heart
(I still want, I still want)
I'm crawling in your heart
I'm crawling in your heart
I'm crawling in your heart
