

Dark Night

Green River Ordinance

Oh my God
It won't be long before I fall
You've got to, got to get up, get up

Where do we run to when everything turns to dust
If everything is losing touch, will I find you
Even in the dark night, I can feel it coming over me
No way we're going to part this sea if I can't find you

Oh my god
It won't be long before I fall [x2]

Oh my god
