

# Don't Be Afraid

## Green River Ordinance

There's a ringing in my head,  
There's a ringing in my heart  
That don't belong

Drowning desperately in red  
I know all the things I've said that don't belong  
And heavy hearted, I hear it calling

Don't be afraid, any longer  
But don't be afraid, you're so much stronger  
Than this

There are lines we haven't crossed  
Aspirations that we tossed along the way  
Even though we said we could  
I just shook my head and stood there in the way  
And heavy hearted, I hear it calling

Don't be afraid, any longer  
But don't be afraid, you're so much stronger  
Than this  
Know my love is here

There's a spark in the way  
Of the dream that will not fade  
It's a light, in the dark, and  
You cannot find your way

There's a spark in the way  
Another dream that will not fade,  
There's a light in the dark,  
That's found your way

But don't be afraid, any longer  
But don't be afraid, you're so much stronger  
You're so much stronger than you used to be

You're so much stronger, you're so much stronger  
Than you used to be, Know my love is so much stronger
