

Piece It Together

Green River Ordinance

And this so familiar feeling
It seems to hang around
Another hour on this road
A hundred ways to let you go
And this so familiar voice just hanging on the line
It's something beautiful quite unusual tonight

It shows me the way
It weighs on my mind
The silence you break
is breathing new life

Let's piece it together
I'll keep it together
We'll making it through whether or not it's gonna stop soon
Let's piece it together
We'll keep it together
We're making it through whether or not it's gonna stop soon

And this so familiar road
It carries me back home
Past a city in a sign to you
And this so familiar smell
Of summer in the air
Is something beautiful quite unusual tonight

It shows me the way
It weighs on my mind
The silence you break
Is breathing new life

Let's piece it together
I'll keep it together
We're making it through whether or not is gonna stop soon
Let's piece it together
We'll keep it together
We're making it through whether or not is gonna stop soon

It shows me the way
It weighs on my mind
The silence you break
Is breathing new life
I'll show you the way
I'll weigh on your mind
The silence we'll break is breathing new life

Let's piece it together
We'll keep it together
Well making it through whether or not is gonna stop soon
Let's piece it together
We'll keep it together
Well making it through whether or not is gonna stop soon

Piece it together
Piece it together
Piece it together
Piece it together

Piece it together
Piece it together
Piece it together
