

Rise Up

Green River Ordinance

I am not weak
I am a warrior
courage unsheathed
I stand alone
And with the sea
of those before me
there is no fear
to call our own

You've got to dig a little deeper
(You've got to) fight a little harder
Knowing there may be no second chance
I will rise up
When there's nowhere left to turn
I will rise up
Let this fire in me burn
When our time is up
I will be there standing strong
Cause I will rise up, we will rise
We are strong
And with each other
We take our stand
We are one
And as the sky Is never-ending
Our faith won't die
We'll carry on
We've got to dig a little deeper
Knowing there may be no second chance
I will rise up
When there's nowhere left to turn
I will rise up
Let this fire in me burn
When our time is up
I will be there standing strong
Cause I will rise up, we will rise
We will rise up

Bridge:
This is the moment that we see
Everything here within our reach
This is the time we find our hearts alive
This is the time for you and me
Together we fight until we're free
We can be all that we can be
Yeaa

Now we will rise up
When there's nowhere left to turn
I will rise up
Let this fire in me burn
When our time is up
I will be there standing strong
Cause I will rise up, we will rise
We will rise

We can be all that we can be
We will rise up
