Come on Down

Green River

C'mon down to the river... Lift your eyes to the skies above Come on in, feel my love A little bit here, a little piece there Pieces of love everywhere C'mon down to the river... The river runs shallow, the river goes deep The river calls in your sleep Dig this baby, now dig this hole Your body's so warm, the river's so cold And you're the one I want to hold You're the one I want to hold You're the one I want to hold You're the one I got to hold C'mon down to the river...
