

Ow!
I've crushed a thousand ants
And I've flushed a hundred spiders
I didn't even know their names
I never let it bother me
Dead bugs on the sole of my shoes
Dead bugs clog the drain
What's dead is now long forgotten
I never let it bother me
No memories of anything, no feeling
No memory of anything, no pain

Blood rain stains my shirt
Blood rain blackens my heart
A thousand bloody faces crack my mind
Uhuh
What's done is done
I just always was
What's done is lost in memory
I never let it bother me
I never let it bother me
