

## Rehab Doll

## Green River

Rehab doll's got a bug that bites  
She picked it up in a shared blood rite  
Take one down, pass it around  
Take one down, pass it around  
Take as many down with you as you can

The river in the city is pumping sewage  
The river in the city runs brown  
The river in the city is pumping sewage  
Rehab doll says she craves a fix

Rehab doll's in for quite a kick  
Ten to one says that it won't stick  
Take one down, pass it around  
Take one down, pass it around  
Take as many down with you as you can

Rehab doll stays up all night  
Shakin', shakin', shakin' yeah, don't feel quite right  
Take one down, pass it around  
Take one down, pass it around  
Take as many down with you as you can  
We all fall down
