

Predicament

Greg Graffin

I've got hope but I can't talk about the future
I've got desire but I can't exercise it on my own
Time won't solve this predicament
Time won't solve this predicament

I've got pain but to tell it hurts the one I love
I've got strength but it attenuates every day
Time won't solve this predicament
Time won't solve this predicament

Troubles never go away
They just resurface on another day

I've got heart but now it's weakened by an empty space
I've got soul but it's been soured by the bane of hate
Time won't solve this predicament
Time won't solve this predicament
