All in a day, all in a day I am without you.

Just yesterday I was on top of my game with you.

Then I should when you were away I think I knew But I refused, I refused to see.

Why did you never come clean with me? Why did you never come clean with me?

In the moment you've erased my ability to hate you were at it again.

Welcome to my new place take advantage of my grace. We\'re at it again, my love.

This is not so innocent this is not what I had planned. I think I should be going.

Why did you never come clean with me? Why did you never come clean with me?

So explain to me yesterday what about all those things you say dear we\'re at it again.

Welcome to my new place take advantage of your space we're at it again.

This is not so innocent this is not what I had planned.

Why did you never come clean with me? Why did you never come clean with me?
