

## High And Low

Greg Laswell

I'm going to see some friends from out of state  
The very trip that you were supposed to take a while ago  
But it fell through  
Like all of you  
Like all of you

Thought i'd make the drive but a free plane ride is in the air  
And just like that my fear of it disappeared  
Like all of you  
Like all of you

And i look high and low for yesterday  
High and low for you and i  
High and low

Once i can see straight i might move somewhere cold  
Seattle or the bay area; to see your ghost  
What's left of you  
What's left of you

And i look high and low for yesterday  
High and low for you and i  
High and low

Found a letter from a man i might have met, addressed to you  
And i'll steal the words he ended with:  
I miss you  
And i do  
Miss you  
And i do

High and low for yesterday  
High and low for you and i  
High and low
