

Long Way Around

Greg Laswell

I want to live on a street in the movies
The one with the trees that filters the sun out
Little by little I could loosen up there
And take the long way around
Take the long way around

I want to live on a street in the movies
I want my mind on undemanding things
Honestly I could live without all of this
And take the long way around
Take the long way around

Where you are alive and well in me
