

Dark Side

Gregorian

Under my dreams
I see the other side

I am the touch of morphine
Lacing your dreams
I am the rude awakening
Rise from you screams
A am the space above your sleep
Before you leave the world behind

You're on the dark side
You're on my side
You're on the dark side
You're on my side
You're on the dark side

Back form your mind your fear and your pain
Leading you back to your dreams again

Under my dreams
I see the other side

I am the space of moonlight
Under you door
And when you come to meet me say you
Knew me befor
And when I'm lying by your head
You put your body into mine

You're on the dark side
You're on my side
You're on the dark side
You're on my side
You're on the dark side
You're on my side
You're on the dark side
You're on my side

Back form your mind your fear and your pain
Leading you back to your dreams again
