

Footsteps In The Snow

Gregorian

VERSE 1:

Years ago we met by chance
Thinking - we'd start the greatest love of all
Both of us were in a trance
Together we have been so strong
Through the years I felt a change
Suspecting we could not keep our love alive
Soon it all
Became so strange

CHORUS:

You're gone
But where I don't know
Footsteps you left in the snow
Now I'm alone
But where should I go
I feel like I miss you so

VERSE 2:

I shy away from love these days
Because I need to be alone for now
We have to go different ways
Then I may understand my faults
I'm sure that it will take some time
Until I open up my heart again
It's so dark
The sun won't shine

CHORUS:

You're gone
But where I don't know
Footsteps you left in the snow
Now I'm alone
But where should I go
I feel like I miss you so
I'd like to set off
And follow your track
But I know you would never come back
All that remains
At the end of the show
Are footsteps you left in the snow
