

My Truck

Gretchen Wilson

M-m-my pickup runs
On Tiger Blood and nitro
D-d-don't try me, son, I'm faster
Than an Eddie Van Halen solo

These girls all dream
About my heated camo leather seats
Don't it make you wonder
Why they all wanna ride with me

My trucks bigger than your truck
You're soft I'm built so tough
Mine makes yours look like a tin cup
My trucks bigger than your truck

My trucks fully lifted
Riding round town on 66 inches
You can hang truck nutz on your hitch but
My trucks bigger than your truck

W-when I rev my engine up
I make the earth quake
I t-t-take up almost two lanes
On the interstate

I got more horses
Than anybody in this cow town
You can't help looking up to me
And I can't help looking down

My trucks bigger than your truck
You're soft I'm built so tough
Mine makes yours look like a tin cup
My trucks bigger than your truck

My trucks fully lifted
Riding round town on 66 inches
You can hang truck nutz on your hitch but
My trucks bigger than your truck

If it's true it ain't bragging braggin'
Check the swag in my wagon, captain
I drive a fire-breathing dragon
Girls all talk about the heat I'm packing

I roll up and big egos shatter
Female hearts go pitter patter
Your girl told you that size don't matter
So why she always tryin to climb my ladder

My trucks!
My trucks!

My trucks bigger than your truck
You're soft I'm built so tough
Mine makes yours look like a tin cup
My trucks bigger than your truck

My trucks fully lifted
Riding round town on 66 inches
You can hang truck nutz on your hitch but
My trucks bigger than your truck
