

# One Good Friend

Gretchen Wilson

One good friend  
I remember when all the elders said  
You'd be lucky if you had  
One good friend  
Who will let you be hateful  
Stop you and knock some  
Sense in your head  
Forgive you and let you  
Take back the things that you said  
Hmm, yeah

Lucky me  
'Cause when I need to talk  
You jump in the car  
Just like family, stealin' my view  
Seein' me through  
And just in a minute  
We're laughin' again  
About how we cried over money and men  
And I just wanna say in my life I had  
One good friend  
Hmm, yeah yeah

One good friend  
Like a shadow, like a willow standing by me  
Strong enough to bend  
Never breaking, never telling all my secrets  
Are safe in your heart  
As well as in your hands  
And I just wanna say in my life I had  
One good friend  
Hmm, yeah

One good friend  
Like a shadow, like a willow standing by me  
Strong enough to bend  
Never breaking, never telling all my secrets  
Are safe in your heart  
As well as in your hands  
And I just wanna say in my life I had  
One good friend  
Oh yeah

So if it means anything  
In the end you're my  
One good friend
