

# California Sky

Greyson Chance

Sometimes I wish that I could stop the clock  
from turning  
And spend the weekend lost inside your eyes  
Somehow I wish I could halt the roses burning  
'Til I can make you mine

From the first time I saw you at that coffee  
shop on Melrose  
They were playing "Hey Jude" & we both  
sang along  
Could've talked forever  
Had a thousand cups of coffee  
I hated that my flight was taking off

And if I had the time  
And I could live a different life  
And if this plane would fly  
Over the California sky  
I'd be with you tonight  
Ohhhhhh  
I'd be with you tonight  
Ohhhhhh

I put my headphones on & went right to the  
Beatles  
Looked out the window, saw your face  
amongst the stars  
Ten hours 'til London & I wondered if you'd  
been here  
And if you know you caught my heart

From the first time I saw you at that coffee  
shop on Melrose  
With your skinny black jeans & your long  
blonde hair  
Could've talked forever  
Had a thousand cups of coffee  
Instead of being ten thousand feet above  
nowhere

And if I had the time  
And I could live a different life  
And if this plane would fly  
Over the California sky  
I'd be with you tonight  
Ohhhhhh  
I'd be with you tonight  
Ohhhhhh

I wanna take you up to Malibu  
I wanna hold your hand in Griffith Park  
I wanna dance with you in Hollywood  
And kiss your lips under the stars

And if I had the time  
And I could live a different life  
And if this plane would fly

Over the California sky  
I'd be with you tonight  
Ohhhhh  
I'd be with you tonight  
Ohhhhh  
I'd be with you tonight  
Ohhhhh  
I'd be with you tonight  
I'd be with you tonight
