California Sky

Greyson Chance

Sometimes I wish that I could stop the clock from turning And spend the weekend lost inside your eyes Somehow I wish I could halt the roses burning 'Til I can make you mine From the first time I saw you at that coffee shop on Melrose They were playing "Hey Jude" & we both sang along Could've talked forever Had a thousand cups of coffee I hated that my flight was taking off And if I had the time And I could live a different life And if this plane would fly Over the California sky I'd be with you tonight Ohhhhh I'd be with you tonight Ohhhhh I put my headphones on & went right to the Beatles Looked out the window, saw your face amongst the stars Ten hours 'til London & I wondered if you'd been here And if you know you caught my heart From the first time I saw you at that coffee shop on Melrose With your skinny black jeans & your long blonde hair Could've talked forever Had a thousand cups of coffee Instead of being ten thousand feet above nowhere And if I had the time And I could live a different life And if this plane would fly Over the California sky I'd be with you tonight Ohhhhh I'd be with you tonight Ohhhhh I wanna take you up to Malibu I wanna hold your hand in Griffith Park I wanna dance with you in Hollywood And kiss your lips under the stars And if I had the time And I could live a different life And if this plane would fly

Over the California sky I'd be with you tonight Ohhhh I'd be with you tonight Ohhhh I'd be with you tonight Ohhhh I'd be with you tonight I'd be with you tonight
