Hold On 'Til The Night

Greyson Chance

Watching the minute hand Frozen solid not moving Still we believe we can But we're afraid of losing Watching from over here It's hardly worth competing I'm almost out of here While breaking a heart that's beating Just as I start giving up I'm not backing up

Run into the light Get out of your own way Not afraid to fight Believe in what you say I'll hold on till the night Hanging by a thread I'm not scared to let go Thoughts inside your head That creep up to get you I believe this is right So I'll hold on til the night

I climbed up on a tree To get a new perspective If love is worth the time The price is being rejected Just as I start falling down I turned this around

Run into the light Get out of your own way Not afraid to fight Believe in what you say I'll hold on till the night Hanging by a thread I'm not scared to let go Thoughts inside your head That creep up to get you I believe this is right So I'll hold on til the night

Hold on til I'm with you All I've got to give you All my fears are slowly fading to never know Yes I start running running running!

Run into the light Get out of your own way Not afraid to fight Believe in what you say I'll hold on till the night (Believe that this is the night) Hanging by a thread I'm not scared to let go Thoughts inside your head That creep up to get you I believe this is right So I'll hold on til the night
