

Leila

Greyson Chance

At first I was speechless
At first I crumbled every time you smiled
You're right here beside me
You're right here, saying you liked to stay a while

All the people say we'll never
Be the type to stay together
But you know I promise you we're gonna prove them wrong
Maybe this is wrong
Or maybe...

You're the one for me
You're the one for me
This feels a lot like love
Leila, Leila, Leila
You're the one for me

December
Snow falling
But every word you whisper keeps me warm
All the odds are stacked against us
People say it's just a crush but
If I could you know that I'd stay here my whole life long
Maybe this is wrong
Or maybe...

You're the one for me
You're the one for me
This feels a lot like love
Leila, Leila, Leila
You're the one for me

Maybe I'll get hurt
And I should keep my distance
Be careful with my heart
But I don't want to listen
Here with you tonight
Something in me knows this can't be wrong
Maybe...

You're the one for me
You're the one for me
This feels a lot like love
Leila, Leila, Leila
You're the one for me

Oh

The one for me
