

Past

Greyson Chance

Broken glass shattered my past
Keeps me here in the present
And these words I say make you go away
Or maybe they just keep you guessing

And broken past is done
I cannot change what I have become
And here I am I'm showing myself to you and they all see
A broken past in me

Seize the day, is what you say to me
To fight all my battles
And keep the faith, keep us strong
The past cannot haunt us all

And broken past is done
I cannot change what I have become
And here I am I'm showing myself to you and they all see
A broken past in me

And broken past is done
I cannot change what I have become
And here I am I'm showing myself to you and they all see
A broken past in me

The broken past in me...
The broken past in me
The broken past in me
I'm beyond the past and now I'm free
