

Temptation

Greyson Chance

Hey, you're old familiar ways
I've been down your road before

You are such a beautiful kid
Of course I want more

It cannot come falling down at the hands of fate
Who am I to decide where the heart lies?

Don't let me down
I'm happy now
Temptation don't come back around
You seem to come
She's not the one
But she might be

Hey, let's take another try
We can keep on going if you like

Hey, let's take it easy

It's all so sudden but it's too early to tell
Because I know about old temptation too well

Don't let me down
I'm happy now
Temptation don't come back around
You seem to come
She's not the one
But she might be

You're the kind of girl that I've been searching for
I think, but I shouldn't be so sure
Who am I to question it?
No more
No more, no more, no more
No more, no more, no more

And don't let me down
I'm happy now
Temptation don't come back around
You seem to come
She's not the one
But she might be
