

# Outside My Mind

Griffin House

I remember the day  
I was outside my mind  
You know if I could  
I would bottle the time  
I would go back to the place where I last saw your face  
Where I kissed you and left you behind

I burn like a furnace  
For you as I wait  
I ran from my memory  
But I could not escape  
It's true that I feel like a fool  
For falling for you  
I love you, but I don't know why

I know I seem crazy to say what I do  
But maybe I'm crazy from thinking of you  
The moment I laid in your arms  
They could do me no harm  
I felt for you more than you knew

Maybe you're thinking  
That I don't even know ya  
Okay you're right, but I still want to show ya  
If we were two strangers first kiss  
Then you're a stranger I miss  
Do you always make strangers feel this?

So hop on that plane  
As soon as you can  
I need to know  
If you understand  
If everything I hoped was real  
You are also feel  
I'll be right here waiting for you
