

# Never Coming Back

Grim Reaper

I couldn't believe when you turned around to me  
And told me what you had done  
You tricked me, told me more of your lies  
You lead me on and I thought it was good  
All you friends were talking at me  
I said you fools but I was the one  
So I'm getting up and going from here  
Just like I knew you would

And I'm never coming back  
I'm leaving here for sure  
And I'm never coming back  
I'm leaving here for sure

Now what's done is done  
Don't come crawling to me  
I've had enough  
Live your life on your own  
You took my love and threw it around you  
Drained me of all that I had  
Now we won't try it again  
I think it's left well alone  
Now I hope you're satisfied  
You blew it away  
Oh baby it's so good

And I'm never coming back  
I'm leaving here for sure  
And I'm never coming back  
I'm leaving here for sure
