

Zoal, Face Dancer

Grimes

Everybody thinks that I'm boring
Many people think I've got no clue
And we do with all the loving you would say
And we do with all the things you do
When you say my name I know you love me
When you touch my arm I know you care
When you look at me then I see your face
And then I see the light, I know I'm there

Everyone thinks that I'm boring
Everybody knows that I'm alive
Love to do with all my heart, you had said
Love to do with the thing, it's blue
When you touch my arm i know I love you
When you say my name I know you care
If you ever had a bluetooth
Can you see the light from there?

ooh
ooh
