

Bad Funk Stripe

Grinspoon

I'm a small portion of the sampled origin
Seems like your kickin' it back to the policemen
I need a breath of fresh air
So we can clear the air
Importance for your labels

Kick the flipper on the gold mark twilight
Kick the flipper so I can see my light
I screamed hooray for flashing bad funk stripe
Screamed hooray for flashing bad funk

Bad funk stripe

Bad vibes from the slide tribe seems
You got your wires crossed when you tried to fix the toasted
But the boasting felt like karate
Rolled with the punches and a blow up vercace
Step on the gas
We really need gravel rash
Give all the hash
Rollin up, pretty smashed
Step on the gas we all need gravel

I screamed hooray
For flashing bad funk stripe
Bad funk stripe

Well there's a crazy situation on the seventh floor
I'm in an argument forever with the lady in the down stairs

Left operator lift me up better
I know you do it well
'Cause I've seen you when your in the rain
And your pain won't go back
'Cause I know it

You try everything to tell me that you know it
You know, I know, you know
A bad funk stripe
