

On a Neck, On a Spit

Grizzly Bear

My messenger in disguise
Makes up for such short goodbyes
You can't come home again
Each time it's different
And the yards around your feet
Fall away while you're asleep

Each day, spend it with me now
Each day, I spend it with me now
Each day, spend it with me now
All my time, spend it with me, but

Each day spend it with you now
Each day, I spend it with you now
All my time, spend it with you now
All my time, spend it with you, but

Each day spend it with you now
Each day, I spend it with you now
All my time, spend it with you now
All my time, spend it with you, but

Out here, no one can hear me
Out here, no one can hear me
Out here, no one can hear me

Each day, spend it with you now
Each day, I spend it with you now
All my time, spend it with you now
All my time, spend it with you, but

Out here, no one can hear me
Out here, no one can hear me
Out here, no one can hear me
