

## Three Rings

Grizzly Bear

You move on again  
See that time to flee again  
You always make it alright  
Is that the way it is?  
Let's get along again  
You know your move around the bend

Why is that the way it is?  
The morning only showed

I wanna show you my bad side  
I wanna be the guy who's right  
I want you to see things clearly  
I wanna make it alright

Don't you be so reasoned  
Don't you know that I can make it better?  
Don't you ever leave me  
Don't you feel it all come together?

Don't you be so reasoned  
Don't you know that I can make it better?  
Don't you ever leave me  
Don't you feel it all come together?
