Fall Silent

Groove Armada

No chance for me to start again Break my heart again No more reason why I'm here There's a flood in my room I'm distraught

There's extra news and that's for sure Bring back my chance to survive Fall of man are bullshit and lies Hope shatters my whole damn life

Even though I'm not alone tonight (Tonight - Tonight - Tonight) My saviour breaks through clouds drain down on you (I'm left? I 'm left? I'm left?)

With you girl come on give in to what I've done (I'm left? I'm left? I'm left?)

Turn the lights out on my life
Can't you see I'm losing my mind?
You walk away again out of my sight
Cause I'll never have you as my wife

I just fall silent (I'm left? I'm left? I'm left?)

My saviour breaks through clouds drain down on you (I'm left? I

'm left? I'm left?)

With you girl come on give in to what I've done (I'm left? I'm

left? I'm left?)
