

# Paper Romance

Groove Armada

taste it in the air so sweet  
because they come alive  
my visions of the city street  
all of electrify

I feel your heat  
I never wanna let you go  
I rock too this beat  
I'm standing here to let you know

yeah you can write me a love letter  
but there's nothing to say  
don't wanna take a chance on your paper romance anyway  
yea you can rub it off much better  
if you come away

my golden heart beats for you  
my golden heart beats for two  
I feel my pain  
the time it takes  
for us to change  
its gonna happen anyway

I feel your heat  
I never wanna let you go  
I rock to this beat  
I'm standing here to let you know

yeah you can write me a love letter  
but there's nothing to say  
don't wanna take a chance on your paper romance anyway  
yea you can rub it off much better  
if you come away

yeah you can write me a love letter  
but there's nothing to say  
don't wanna take a chance on your paper romance anyway

yeah you can write me a love letter  
but there's nothing to say  
don't wanna take a chance on your paper romance anyway  
yea you can rub it off much better  
if you come away
