

# Can't Get Over You

Groove Coverage

There`s an everlasting storm  
Blowing trough the night  
I feel love, I feel hate  
Right by my side...  
Tears like rain fallin down,  
Don`t know what to do  
I remember those days,  
Can`t get over you...  
You decided to leave  
And told me nothing but lies  
Got no reason to live,  
I need you by my side  
There so many things,  
You didn`t come up to  
I`m surrounded by pain,  
Can`t get over you ...

So much time passing by,  
Since you went away  
I felt sun, touched the spring  
And saw autumns gray.  
Tears like rain falling down,  
Don`t know what to do  
I remember those days,  
Can`t get over you...  
So I`m still searching for  
A certain place to hide  
I feel love, I feel hate,  
There`s no end in sight.  
Most of all i can`t wait,  
To come back to you  
I'm surrounded by pain,  
Can`t get over you
