Can't Get Over You

Groove Coverage

There`s an everlasting storm
Blowing trough the night
I feel love, I feel hate
Right by my side...
Tears like rain fallin down,
Don`t know what to do
I remember those days,
Can`t get over you...
You decided to leave
And told me nothing but lies
Got no reason to live,
I need you by my side
There so many things,
You didn`t come up to
I`m surrounded by pain,
Can`t get over you ...

So much time passing by,
Since you went away
I felt sun, touched the spring
And saw autumns gray.
Tears like rain falling down,
Don`t know what to do
I remember those days,
Can`t get over you...
So I`m still searching for
A certain place to hide
I feel love, I feel hate,
There`s no end in sight.
Most of all i can`t wait,
To come back to you
I'm surrounded by pain,
Can`t get over you
