

# Darkness

Groove Coverage

Cold, bitter, sweet and empty is how I am sometimes  
Weak, weary, crazy, restless is what I feel tonight  
You build up all these walls to make yourself feel safe  
But I can see right through all this shame

I will be your darkness and I'll be your light  
I wanna make it through your night  
I will be your weakness and I'll be afraid  
I'll be the poison in your veins  
I will be your darkness and I'll be your light  
I'll be the best time of your life

Calm, angry and frustrated, leave it all behind  
Together, strong and faithful, read what's on my mind  
Don't close your door, I am the one to save your dreams  
'Cause I am taking over all your dreams

I will be your darkness and I'll be your light  
I wanna make it through your night  
I will be your weakness and I'll be afraid  
I'll be the poison in your veins  
I will be your darkness and I'll be your light  
I'll be the best time of your life

I will be your darkness and I'll be your light  
I wanna make it through your night  
I will be your weakness and I'll be afraid  
I'll be the poison in your veins  
I will be your darkness and I'll be your light  
I'll be the best time of your life
