

## I Need You vs. I Need You

Groove Coverage

I know there's somethin in your eyes,  
I know there's somethin in your smile,  
makes me feel like loosin all my thoughts tonight,  
Baby. Everyday I read between the lines,  
every night I'm searching for your signs.  
You belong to heaven's gate,  
angel of hope

So many things I failed to do  
One thousand miles I'd run for you,  
you're still the only one I ever need, Baby!  
Everyday I read between the lines,  
every night I'm waiting for your signs.  
You belong to heaven's gate,  
angel of hope

I need you, you're always on my mind.  
That's all you left behind, my love will last  
eternally

I need you, like no one else before  
You're all that I adore, my love will last  
eternally I need you
