

The World Is Mine

Groove Coverage

I'm used to get what I want
Since I was born I am the princess
I never ever had to ask for it
Just a smile and I got it
And I love to be the spoiled and naughty girl
I love to have the world at my feet
And in the club I love to dance all night long
I love to sync to the beat

And incase that you don't enjoy what you see
Close your eyes.
I really don't need you to agree
So better think twice.
And if you don't wanna dance with me
Turn around.
I can replace you with a simple sigh
Because the world is mine.

This club is full of beauty and sin
Just like my own paradise
And if I were to find an apple like Eve
Guess what, I would bite it twice
And I know for sure that I will win
It doesn't matter which game I will play
And I will, some'll say I'll run whatever I want
And whatever all the people say

And incase that you don't enjoy what you see
Close your eyes.
I really don't need you to agree
So better think twice.
And if you don't wanna dance with me
Turn around.
I can replace you with a simple sigh
Because the world is mine.

And incase that you don't enjoy what you see
Close your eyes.
I really don't need you to agree
So better think twice.
And if you don't wanna dance with me
Turn around.
I can replace you with a simple sigh
Because the world is mine.
