

What You C Is What You Get

Groove Coverage

You say that you love me (oh)
but I'm better off alone
You say that you need me, (oh, no)
but baby I am not the one
I am a girl that wants to live,
I love to take, I can not give
You gotta understand

I play my game without a shame,
I know your face but not your game
You better fucking understand

I'm sure I drive you crazy
What you get is what you see
There's no need in being hazy
So you better look at me.

You better look, you better look
What you get is what you see
You better look, you better look
What you get is what you see

You say that you're crying,
but baby i don't dry your tears (oh, no)
You say that you're dying (oh)
Digging graves is not my case
Cause i'm too strong to be your bitch
You wanna pay but I am rich
You gotta understand

I spread my wings
I wanna fly
No limitation reach the sky
You better fucking understand

I'm sure I drive you crazy
What you get is what you see
There's no need in being hazy
So you better look at me.

You better look, you better look
What you get is what you see
You better look, you better look
What you get is what you see

I'm sure I drive you crazy
What you get is what you see
There's no need in being hazy
So you better look at me.

You better look, you better look
What you get is what you see
You better look, you better look
What you get is what you see
