

## When Life

Groove Coverage

I defy myself  
I'm living in a lie like no one else  
Just take a look and you will see  
That paranoia is a part of me  
But there are days without an end  
There is enemy and friend  
Please God help me to survive this life

When life is on the longest way  
Then life becomes your love one day  
When life takes all away from you  
There's nothing you can do  
I try to find my way somehow  
I'm flooding on the highway now  
Tomorrow is a brighter day  
You know we cannot stay

Look behind, go ahead  
Many things that make you sad  
You can change your way  
I'm living on the edge of yesterday  
My memories are cursed to fade away

But there are days without an end  
There is enemy and friend  
Please God help me to survive my life

When life is on the longest way  
Then life becomes your love one day  
When life takes all away from you  
There's nothing you can do  
I try to find my way somehow  
I'm flooding on the highway now  
Tomorrow is a brighter day  
You know we cannot stay  
You know we cannot stay

When life is on the longest way  
Then life becomes your love one day  
When life takes all away from you  
There's nothing you can do  
I try to find my way somehow  
I'm flooding on the highway now  
Tomorrow is a brighter day  
You know we cannot stay
