

Bye Bye Brain

Groovie Ghoulies

What's my name? how long have I been here?
Won't you stay? why are you acting weird?
Of course she left her picture
Just to rub it in
I can't take this no longer just put me in the bin

Bye bye brain
So long sanity
Everything went away
When she left me
I can't make sense this morning
My head is acting strange
Its all one big old pain
Bye bye brain

Am I dumb or was it all that rum?
My feet are numb
This isn't any fun
She's probly somewhere laughing uncontrollably
and sticking little pins into a voodoo doll of me.
