

Ghoulie Family

Groovie Ghoulies

You feel funny like no one cares
When you walk down the street
Everybody stares
The same people that beat you up
Listen to your friends bands
And when you have a question
No one understands

You and me are a ghoulie family
Dealing with disfunctionality
Like the branches on that one kept
Christmas tree
You and me are a ghoulie family

Living in a world that's gone insane
Living on a completely different plane
Flushing our futures right down the drain
Making the same mistakes
With no one else to blame

You and me are a ghoulie family
Dealing with disfunctionality
Like the branches on that one kept
Christmas tree
You and me are a ghoulie family

You and me are a ghoulie family(5x)
