

Explosion

Ground Zero

Tonight this place is gonna explode
Tonight the world is gonna blow up
Tonight it's gonna erupt
Did you hear the news
The lava is gonna go
The volcano is gonna explode
Tonight's the last night
So we may as well have some fun

(Chorus):

Oh

Tonight it's gonna erupt
Tonight we're gonna explode into a thousand pieces
Tonight's the end for everyone
Tonight this place is gonna blow up, up, up, up, up, up

It's time for the eruption
Soon the lava will be descending down to attack us all
That's why tonight we're gonna go insane
As it rains down
Rains down lava onto our souls
Ready for us to explode

(Chorus)

It's time for the eruption
It's time for the explosion
And when it bursts down
And kills are spirits away
All that will be left is the echo
Of our screaming names
It's all over
We need to go insane
It's time

(Chorus) x1

This place is, place is, place is
This place is about to blow up-up-up-up-up-up
This place is about to explode
This place is about to blow
This place is, place is, place is
This place is about to blow up-up-up-up-up-up
