

# A Lot In Common

Group 1 Crew

I was driving in my car last night  
Radio up and came to a stoplight  
Had a man who came up to my window and  
Asked for a dollar cause he was in a tight jam  
I could tell by his eyes he's been  
Judged by the world and everyone that's close to him  
But I don't see what they see  
My heart believes in what he could be  
I see life colorblind still  
Equality gets so hard to find  
You and me both one of a kind  
Made like a star to shine let's shine

Chorus:

Sometimes we're up and sometimes we're down  
Sometimes the world goes round and round  
And we don't stop to think that  
We got a lot in common  
Sometimes we have it sometimes we don't  
What matters most is not the physical  
Just look inside your soul cause  
We got a lot in common

We gotta keep on keep on, and gotta press on press on- blazing ahead

I see the sun coming up and I'm feeling the rays  
And thinking back on my life and not forgetting the days  
When I was a little lost and only trying to get paid  
And how my momma always prayed that I would be ok  
Then a day soon came when my sky turned grey  
And every friend that I had turned and walked away  
I never thought that I would see this day  
But then I heard a voice crying through the dark  
You're my son just pray  
And what I said next vexed my heart but nonetheless  
Admitted that I was wrong, committed to do my best  
Hard times still came but they far from my chest  
I breathe easy believe me my soul's at rest

I can tell in your vision that you can't no more  
Your shirt is stained by the tears that nobody ever saw  
A slave to solitude handcuffed by people's claws  
Who never even noticed the depth of the scars  
A fatherless child who never got the chance to hold  
Daddy's hand and mommy was always working trying to pay the rent  
So your voyage began on a trail to the end  
Cause you never knew what love looked like to begin  
But I promise that the day will come when you win  
And what you thought was once lost will be placed in your hand  
Then the days of being second will be lost in the wind  
So bear with us and let me hear the chorus again

Through all the low times  
No where to go times  
When your world's crashing down  
And there's no one around  
Don't you worry we can make it

If we just realize we all look the same inside  
Get together and come alive
