

# Clap Ya Hands

Group 1 Crew

Clap, clap ya hands  
Clap, clap ya hands

We found a new way to rock it while we doin' our thing  
And bringing acapella fellas and my ladies that sing  
We clap hands like, what  
What we doing is a new form of music  
That got you getting out of your seats

Let it be known that your favorite crew is up in the spot  
A new chapter to life with every show that we rock  
We work hard for this position and we ain't gonna stop  
Cause we busy makin' moves with every lyric we drop

Chorus:

Bum, bum, bum, bum, bum  
Clap clap ya hands  
Bum, bum, bum, bum, bum  
Clap, clap ya hands  
Bum, bum, bum, bum, bum  
Clap, clap ya hands  
Bum, bum, bum, bum, bum  
Now throw ya hands up

Let me see, let me see  
All of you with hands up  
Everybody we're doing this in the name of  
The One who took us from nothing but now we came up.

Now hold on, we rockin' with ya'll move to the song  
It's been a while since we gave y'all something to rock on  
Two emcees, a vocalist we've been sent on a mission  
To reach a people who been tired of the new religion

He's so divine that our rhymes shine solely for Him  
And so we kindly remind every person within  
You'll get your time in the lime if you find it in Him  
And every line that you sign - never sell out to win.

You put the rhythm in my feet so I could dance  
Now all I want to do is clap my hands  
You put a song in my heart now I can sing  
Let this music lead you on  
To that place where you belong  
Where we could be free to lift him up  
And keep it going on and on.

Everybody if you are free come follow me  
Everybody if you are free come follow me  
Everybody if you are free come follow me  
Everybody if you are free come follow me

So underrated  
Clap hands for those who made it  
And we clap for every single person that's hated  
Because we clap for the purpose that is  
Greater than us

So bring the chorus back  
Clap if you vibin' with us
